Disaster Recovery Institute International (DRII)
Certified Business Continuity Auditor/Lead Auditor
BCLE-AUD Certification Course with Exam

Building up Business Continuity Auditing competency through professional certification from DRI International

Course Description

This course covers relevant standards, laws and regulations, the process of risk assessment, vulnerability analysis, loss prevention, risk mitigation, and the development, implementation, testing and maintenance of emergency management and business continuity plans and procedures. Course materials delve into existing legal and regulatory requirements, as well as standards including IX-110-53 (PS-Prep), NFPA-1600, BS-25999 and SS540.

This 4 ½ day course includes 32 hours of instruction followed by the Qualifying Exam of 100 multiple choice questions. Instructors offer a fast-paced overview of DRII's business continuity planning model and delineate the knowledge, skills and procedures needed to effectively execute each stage. Case study exercises as well as valuable experience sharing by the instructors will be employed during the course to reinforce learning. Upon completion of this course and passing the unique qualifying exam, participants will be able to apply for either Auditor or Lead Auditor designation based on practical experience.
